The Festive Board is as important a part of any Masonic meeting as is the work done in the Temple. It affords the Brethren the opportunity to enjoy the social side of Freemasonry as well as the more formal ritual side. That said, it must be remembered that the Festive Board is also a "formal" affair, with its structure and rules of deportment, although giving plenty of time for Brethren to chat amongst each other and enjoy each others' company.

Our new Master Masons will be welcomed, and will participate fully with the work of the evening. Please join us for this most special event.
